

Alleviating global poverty through life-sustaining technology
doutreach.org

Thank you for partnering with Design Outreach to sustainably solve issues of poverty around the world. We are using the LifePump to solve the global water crisis, and we need your help. Each Ten4LifePump sheet, once complete, will raise \$100 to provide many more LifePumps around the world. But you don't have to stop there! Give this form to 10, 15, even 50 of your friends who would then ask 10 of their friends for \$10. Complete your form and return it to your fundraising champion or Design Outreach representative, along with the money raised. *It's that easy!*

Visit lifepump.org for more information.

Ask 10 people to donate \$10 each!
